In Loving Memory Of Our Founder Principal  
Late Mrs. Seema Agarwal

July-September 2022 Volume 2: Monsoon Edition

**LITTLE ANGELS SCHOOL**  
Pilibhit

## *From the Principal's Desk*

Dear Readers,

The role of a school is not only to pursue the academic excellence but also to motivate and empower the students to be lifelong learners, critical thinkers, and productive members of an ever-changing global society. Converting every individual into a self-reliant and independent citizen, our school provides an amalgam of scholastic and co-scholastic activities. The world today is changing at such an accelerated rate and we as educators need to pause and reflect on this entire system of education. "To motivate the late bloomers, to mould the mediocre and to challenge the gifted" is the teaching notion. A committed and supportive management, dedicated teachers, caring and co-operative parents blend harmoniously to create this school as a child-centric school.

The year 2022 has been an eventful year at Little Angels. The academic bars have been set even a step higher by our CBSE board results this year. We have got our brilliant district toppers in 10th and 12th. It has only been possible because of the immense support and belief of the kind parents. I sincerely thank our teachers, as their hard work and efficiency has made a big difference in the lives of the students. We are proud to say that our students' stellar performance at the boards has indeed given us plenty of reasons to celebrate.

N.C. Pathak  
(Principal)

## *From the Editor's Desk*

With a profound gleeful heart, We present before you the second edition of our school newsletter '**CAMPUS BUZZ**'. This edition brings forth the tale of past three months swarmed with action-packed activities, some regular ones and some with newer twists. The pages will unfold a glimpse to vivid performances. While the results speak glory for themselves, what lies at the back end is the consistent undertaking of the staff members and applause to our directors of these enthralling ventures is worth a mention.

Besides various activities, LAS introduced a new post of 'Student Editors' in the School Cabinet. As for, we are trying our best to ensure that our budding artists get a considerable exposure, we invite a maximum participation of the students for our newsletter. Let us just join to continue the legacy created so far.

Jasmeet Kaur

As our school has introduced the quarterly newsletter, I am elated to have got the opportunity to be a part of its Editorial desk as a Student Editor. It will expand my thinking capacity and knowledge. As a School Newsletter is an effective medium of informing students and parents about various school activities, events, and achievements it opens new vistas of exploring and learning too.

We are honoured to be a part of this initiative and happy to bring the second edition of the newsletter.

**HAVE A HAPPY READING TIME .**

Kushagra Johri  
XII - Commerce

I am brimming with gratitude for being given the opportunity to be a part of this new venture...being an editor to the school newsletter **Campus Buzz**. It is unprecedented that an Editors' post has been carved out in the school cabinet. It holds all new spheres of work that are as much exciting as illuminating. Looking forward to learn and present the better versions of our newsletter too.

Udita Saxena

## The Walk

The walk to discover the destiny  
The walk to solve life's mystery  
Courage to confront and accomplish the task,  
....through the walk!

The walk to build faith and confidence  
The walk to reach zenith with exuberance  
Clinging hopes, aspirations, craves with life's stalk  
....through the walk!

The walk to beat the negative vibes  
The walk to lead and cope with life  
Keep moving ahead incessantly on the path  
....through the walk!

The walk to configure the coming days  
The walk to escalate the happiness  
Dreams to chase, grab, anticipate and unlock  
....through the walk!

The walk to acclimatize your yourself  
The walk to go on for the self-help  
Capturing moments, gathering unique experiences  
including the self-talk  
....through the walk!

Ms.Neha Saxena

## Home

It has been years  
Since I last went there  
The place I called 'Home',  
It was my little comfort zone  
The place had changed less  
When I decided to visit it yesterday,  
The blue gate stood tall  
I think I heard my grandma call;  
my name the way she did  
I stood in the verandah  
Completely immersed  
In the memories of my past  
Millions and billions of moments  
That turned into memories bittersweet  
Life changed, I moved on  
The place that was the centre  
Of everything in my life  
Is cherishing new stories now  
Yet that place will be  
Differently same for all

Yashita Mishra

## PRIZING OUR YOUNGLINGS

# Confab - A Glimpse to our Alumni

**“Row Row Row your boat  
Gently down the stream  
Merrily Merrily Merrily Merrily  
Life is but a dream”**

This nursery rhyme envisages a truthful message- Life is but dream. but ironically very few live their dream. **Divyam Agarwal**, 2016 batch alumni, working as a **Marine Engineer** with the **Indian Shipping Giant- Elegant Marine Services** has all reasons to preen into. Walking the school corridors reminiscing his golden days laughs that who would have thought this mischievous boy who used to be punished for incomplete work, who hopped around the school campus would become a sailor trotting the Marines. A graduate in Marine Engineering from **Directorate of Marine Engineering Training (DMET)**, Kolkata, he has sailed across half the globe and has interesting narratives to share. Here’s a glimpse to his tales.

**Divyam Agarwal**

## **Q1. What made you choose Merchant Navy?**

Throughout my school days, I missed no opportunity to explore what all I could learn. I enjoyed this ‘Exploring’. But after class XII, I, like many, attempted for NDA, cleared it but didn’t hit SSB, even in the second trial too. I chose to drop a year and prepared for IIT, all went well but even then I wasn’t happy. It was so mundane and the thought of a ‘Chair job’ literally didn’t attract me. So once while walking across the road I saw a small banner of IMUCET; and that changed all. I prepared for entrance and cracked it, but without informing my family.

## **Q2. How did your parents react to it when you told them about you taking Merchant Navy?**

(Sighing deep) Their first reaction was getting worried. Their apprehensions were right in their perspective. So they tried all ways to make me quit and convince that I should choose some easier job. They tried to scare me with the things like I would be out of home for long months. How difficult my life would be life with only water all around? But my father has been a constant support and then too he supported me to pursue my choice.

## **Q3. You had dropped a year after class XII. What was the reason behind? How did you manage the stress of dropping out?**

I had been a good student since ever “ An apple of everyone’s eye”. (Thoughtfully) They all expected an excellent result but I managed only 91%. I couldn’t withstand those questioning eyes. I knew what I was capable of. I decided to take a gap and prove myself. Talking about stress...(with a curved smile) when you have a goal to achieve, you really can’t afford anything else to eat up your energy and specially when you are amongst the people who are either ahead of you or equate you!! None is behind you. Then...my dear, there’s no scope for stress.

## **Q4. You returned home after nine months. How did you manage yourself all alone away from home?**

It’s obviously tough to be away from family but I chose this myself and I enjoy every bit of my job. Luckily I have wonderful seniors there. I love playing flute when free. I even painted Popeye on our Ship. I love to sweat and train my muscles. There are plenty options to keep yourself engaged whether on water or on land other than mobile ( I got 200 MBs when on ship)

## **Q5. One advice for all Angelians**

(Giggling his heart out) I can infact give three

- Be a good listener-Its a key to learn more.
- Be consistent
- Never let your ego hinder your learning.

## Vox Populi (voice of people)

Examinations- done; Results- Declared

Its the high time to reflect onto one's weaker strings; and strengthen them up. But its quite a humanistic thing to get depressed or to bounce up with over confidence. The key is to remain subtle. Bringing to you some advices to retain your calm and be focused.

Do not compare yourself with others. It depreciates your talents and skills. But yes! Yes you must compare yourself with your previous performances and must be determined to take the next required move likewise .

Mrs.Anju Saxena  
(Vice Principal)

Life is a product of highs and lows. Although Life is only once but failures and successes are limitless. Be confident but not overconfident because Confidence is the reason of success and overconfidence is the reason to bereave your success.

Mrs.Neena Mehrotra  
(Head Mistress)

I would just say to never stop learning. If you are weak at something, practice it daily because consistency transforms average into excellence. Keep trying and always believe in yourself, because if you will not then who will.

Mrs.Priya Jain  
(Co-ordinator)

You don't have to hurry. Take things slowly, at your own pace. You don't have to be in a race and become someone else. All you have to do is never stop trusting yourself and never stop growing and evolving.

Miss.Harminder Kaur  
(Co-ordinator)

**.BEAUTY BEGINS THE MOMENT YOU DECIDE TO BE YOURSELF.**

"BE YOUR OWN VERSION TO SMILE."

"LOVING YOURSELF ISN'T VANITY, IT'S SANITY."

"HOW YOU TREAT YOURSELF IS HOW YOU ALLOW OTHERS TO TREAT YOU."

We often hear such types of quotes. Many of us might know the real meaning too,

But do we actually understand the word "SELF LOVE"

Or are we really practicing it right?

Many times we just sit and do not mind what other people say that is more like ignoring. We just do what we feel like. So basically we do the things to which "NO" has been said. In short doing things which trigger someone else's feeling or thoughts.

More like breaking societal rules sometimes.

But does that allow us to grow? No!

We grow better when we have better people in our circle, when our goals are set, when our existence doesn't pressurize us neither our aim. So it's better to surround with the people who inspire rather than who drag you down. It's also said that while taking a step towards accepting ourselves, it is important to recognize our thoughts. It's necessary, in order to be self conscious. Thinking has a great effect on us as always. I support this by a saying, "YOU ATTRACT WHAT YOU THINK."

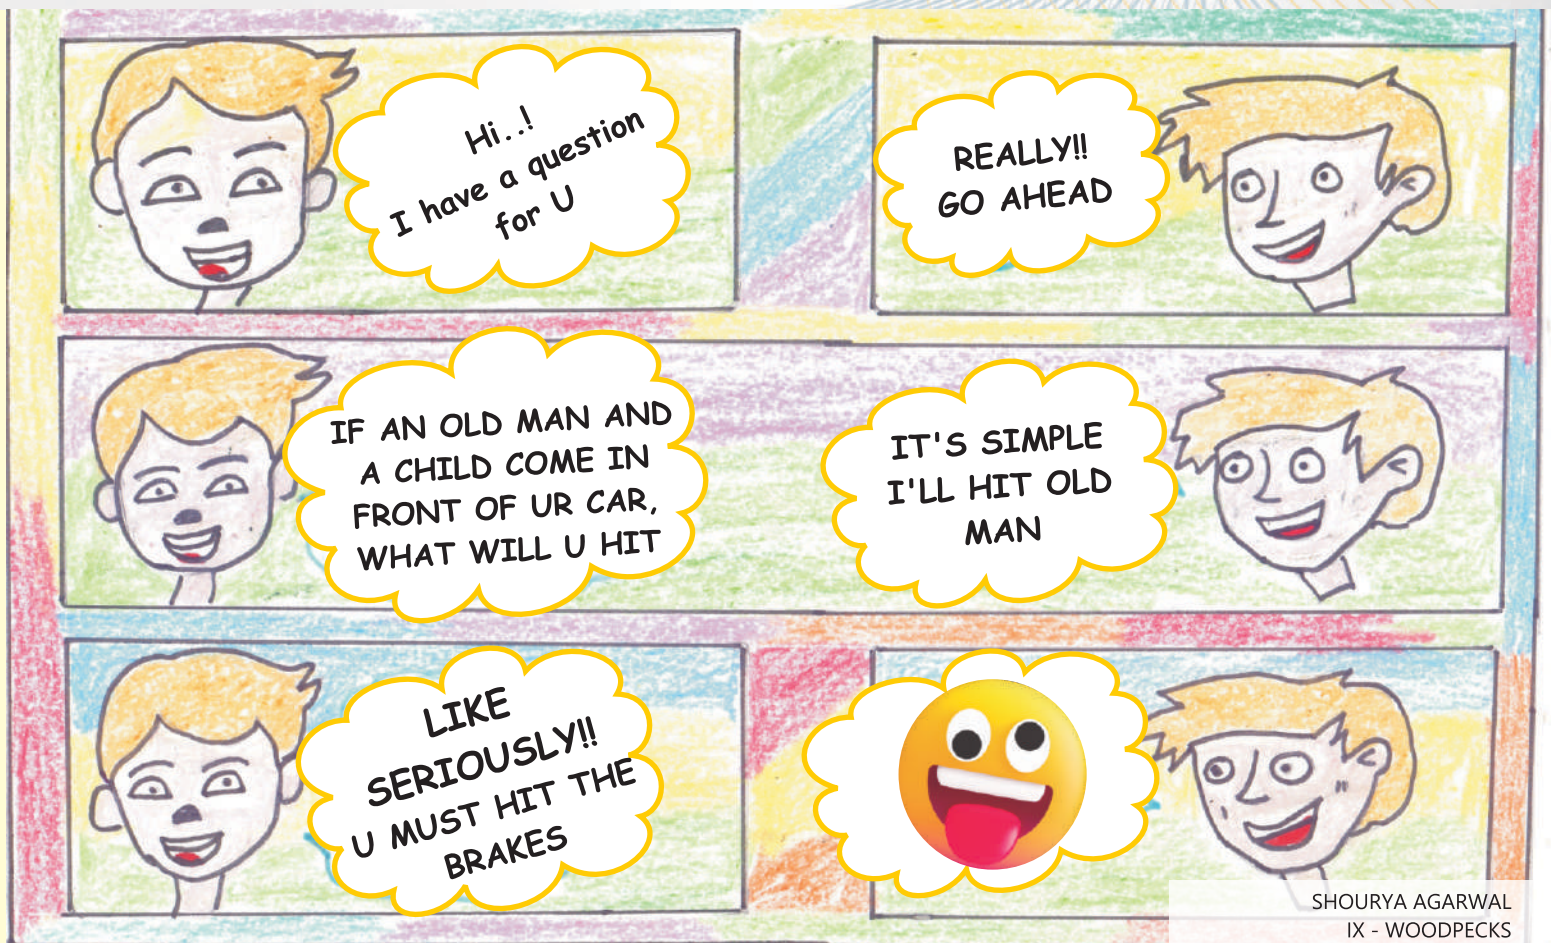

Here by "THINK" we refer to a special mindset, attitude, and thoughts.

That's why elders always say, "THINK POSITIVELY." Maybe now you know the effect our thinking has on us.

Remember that,

"YOU ARE YOURS BEFORE ANYONE ELSE'S."

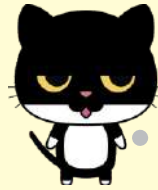

Yogyata Singh  
IX - WOODPECKS

## Hello To The Past

The saplings have grown,  
flowers are yet to be shown.  
Past the days of those first teeth,  
when I used to be innocent and sweet.  
From addition to algebra we all have updated,  
yet a lot more has left to be created.  
When I was a kid I didn't know I would grow up,  
now I want that the time should little slow up.  
Pencil turned into pens,  
the world is changing Its trends.  
Not just the height but the expectations too are growing.  
Not just the wind but the time is too flowing.  
Remember when we used to ride those swings,  
without caring about our future wings?  
The first step in the school with a cry,  
now this little angel is about to fly.  
Twinkle Twinkle was our anthem,  
Tom and Jerry was not less than a fandom.  
Moments turned into memories,  
now they are saved in galleries.  
The wind whispered and I smiled,  
I miss being a child.
